Thank you for participating in today’s Serving Awareness dinner for APS Type 1. We hope you have had a great time and we’ve generated some positive memories. It is our wish that this event has shed some light on the fundraising challenges for those rare conditions in need of your support. As APS Type 1 affects only 1 in 2 million people, your encouragement for those who have been touched by this ultra-rare condition make these occasions so special. The APS Type 1 Foundation needs your help!

Your tax deductible financial contribution will support activities such as:

- Ground breaking Research by allowing us to offer grants through NORD (National Organization for Rare Diseases) that will help find a cure!

- Awareness projects that will help doctors diagnose APS Type 1 earlier and create a disease registry.

- Education for our families, physicians and researchers through our website, international conferences and a newsletter.

We appreciate any and all support. As our gift to you we will keep you and your family in our thoughts and prayers for a happy and healthy year. Thank you!

To make your donation, please go to apstype1.org/serving-awareness/.

Or if you like you can leave a check and we will make sure that it gets processed on your behalf.

Thank you for Serving Awareness for APS Type 1!

Who says rare disease isn’t dinner talk?
Thank you for participating in today’s Serving Awareness dinner for APS Type 1. We hope you have had a great time and we’ve generated some positive memories. It is our wish that this event has shed some light on the fundraising challenges for those rare conditions in need of your support. As APS Type 1 affects only 1 in 2 million people, your encouragement for those who have been touched by this ultra-rare condition make these occasions so special. The APS Type 1 Foundation needs your help!

Your tax deductible financial contribution will support activities such as:

• **Ground breaking Research** by allowing us to offer grants through NORD (National Organization for Rare Diseases) that will help find a cure!

• **Awareness** projects that will help doctors diagnose APS Type 1 earlier and create a disease registry.

• **Education** for our families, physicians and researchers through our website, international conferences and a newsletter.

We appreciate any and all support. As our gift to you we will keep you and your family in our thoughts and prayers for a happy and healthy year. Thank you!
